**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please don't do something to reduce competition for decently priced internet and telephone services. We are a small family that uses the internet extensively for educational purposes. Sonic offers great service at a price that isn't even that cheap but if you take away their ability to offer competitive prices, ATT will probably charge much much more than them and than they used to before you handing exclusive access to certain infrastructure. I'm glad you consider property rights, etc. but the lines used for internet should be more not less accessible for other businesses. thank you.
